

Commerce New Theme Has Been Released

2021-04-15 - Fahtia Nurmalinda - Comments (0) - General

What's New

As of March 16 2021, Netsuite has released theme updates for SuiteCommerce Interface. The following SuiteCommerce Theme SuiteApps, are:

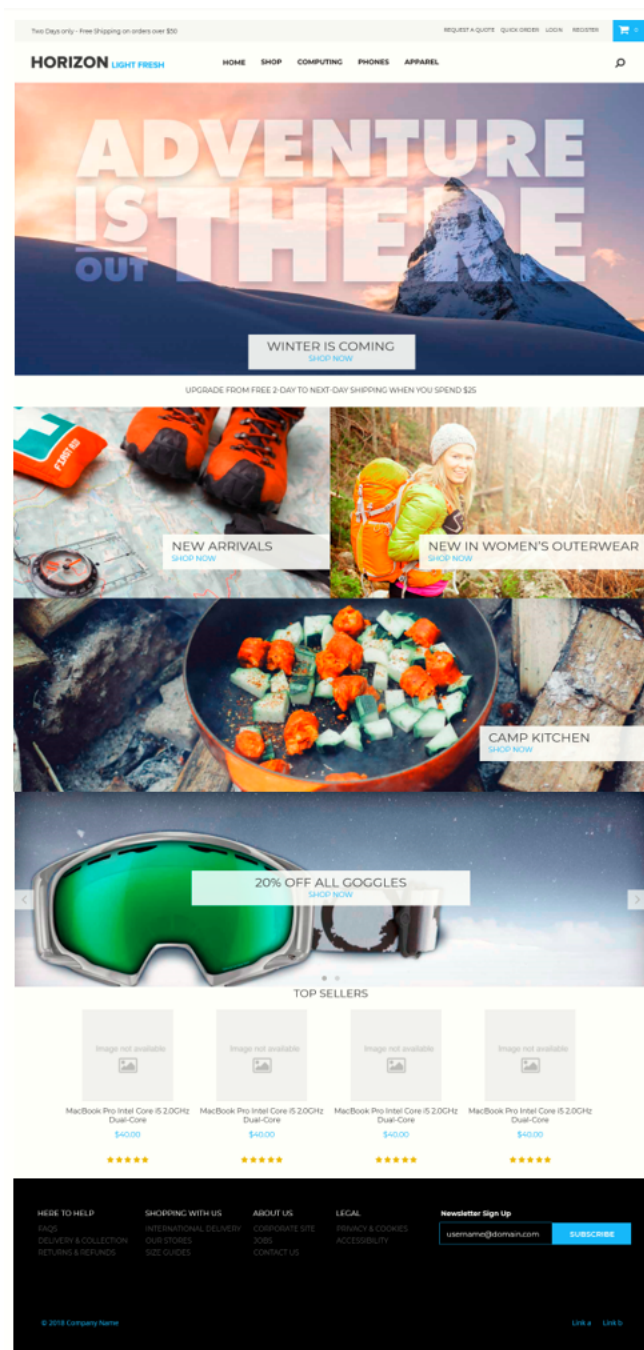

Bundle ID	SuiteApp	Documentation	Version
312825	SC Horizon Theme	Horizon Theme	3.0.6
312849	SC Posh Theme	Posh Theme	3.1.2

Overview

Horizon Theme

Version 3.0.6 of the Horizon Theme fixes an issue that prevented info block images from displaying correctly. Info block images are now displayed correctly. Also, some issues with translations have been resolved.

The Horizon Theme lets you showcase products for your outdoor supply web store. It is only available if provisioned, installed, and activated for a selected domain in your account. You can configure the Horizon Theme properties on your domain using the Suite Commerce Configuration record.

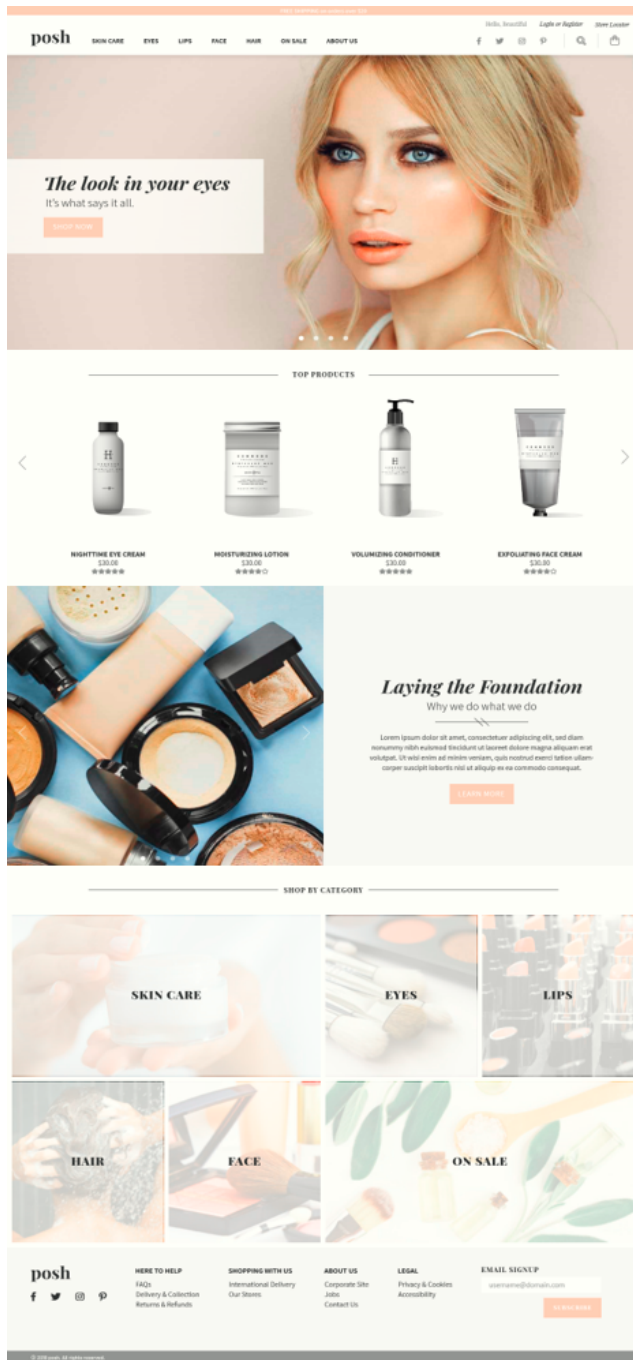

Posh Theme

Version 3.1.2 of the Posh Theme fixes an issue that prevented info block images from displaying correctly. Info block images are now displayed correctly. Also, some issues with translations have been resolved.

The Posh Theme is a custom theme that lets you showcase your health and beauty web store's assorted products. It is only available if provisioned, installed, and activated for a selected domain in your account. For more

information. You can configure the Posh Theme properties on your domain using the SuiteCommerce Configuration record. For more information.

Important

When activating theme, you must also activate the Theme extension that comes with the SuiteApp.
